- (f) Point of return of water to stream Not returned.  
Describe in same manner as point of diversion.
- (g) Remarks

DESCRIPTION OF PROPOSED WORKS

Water will be diverted from creek by small dam and piped for about 500 feet; thence ditched for some distance to a point near where a water wheel will be installed for power purposes. It is proposed to confine water in a pipe for a short distance above water wheel in order to get a sufficient head for the development of power, the surplus water passing the wheel to be used for irrigation purposes on the land heretofore described.

- 5. Estimated cost of works \$1000
6. Estimated time required to construct works 2 years.
7. Remarks Power is included in this application for the reason that it is to be developed along the ditch line used for irrigation purposes.

Aaron Peterson, Applicant.
